RAL9005 Black

ATLAS BASIC series of wall mount cabinets were designed to serve purpose of installation of small or medium networks. Each cabinet with depth of 450 mm comes with galvanized profile rails at the front and 600mm cabinets comes with profile rails at the front also at the back with U marking. Profile rails can be adjusted along with the depth of the cabinet as per your need. Side panels are lockable and removable. Front door is easy to detach, it can be opened to left or right and different options are available (glass door, full metal door or perforated metal door). 3 points of cable entry, on the roof through sliding panel with rubber sealing, and on the rear or on the bottom when plastic cover is punched out. Two ventilation holes on the roof of the cabinet provides passive ventilation when fan unit is not assembled and active ventilation when the fan module is assembled. For freestanding purposes leveling feet or castors are available.
